Invite you to join us for

Mini-MOCK NW-1 TEACHING TRIAL

Saturday April 26, 2014, 11:30 AM – 4 :00PM
South Whidbey Parks & Recreation District office
5475 Maxwellton Road, Langley, WA
\$30 per dog/handler team

This trial is suitable for teams working on birch who are not yet ready to enter a “real” trial. As at a NW-1 trial, there will be 4 elements (interiors, exteriors, ~20 containers, & 3 vehicles) with one birch hide per element. However, search areas will be smaller and less complicated than at a NW-1 trial, and *unlike a NACSW trial*, you will be able to **watch other teams** once you have run your dog and you may have someone **video your run** – both are excellent learning opportunities.

\$30/team includes:

- *water & snacks,
- *judges' de-briefing at the end of the day, and
- *one-on-one coaching from your judge if you get “stuck.” If you miss a hide, the judge will coach you to the correct location so that your dog will always be successful.

Water will be available for your dogs but please bring your own bowl – for the health of your dog and on the recommendation of our veterinarian, no communal water bowls will be provided.

Please do NOT handle odor on the day of the trial.

Only 15 spaces are available and will be filled on a **first-come/first-served basis**

Please respond directly to Georgia Edwards (k9nosework@whidbey.net) to enter; you will then be directed to the on-line registration system of the SWPRD website to confirm & pay for your registration.
